

27.01.2023 lecture on the (vehicle) history of the NOB

Dear members and guests of our society

Have you missed us? We missed you too!

Actually Werner Hardmeier's **lecture on the (vehicle) history of the NOB and its predecessor railways** was scheduled for December 9. However, the tight availability of suitable conference rooms in the pre-Christmas period and new findings that our speaker would like to include in his lecture prompted us to reschedule the event.

Werner Hardmeier would therefore like to welcome you to his lecture on Friday, 27 January 2023 at 6:15 pm at Olten.

We will inform you of the venue in the immediate vicinity of Olten railway station at a later date.

In addition to the corresponding preparations, the board and committed members of the SGEG have been working on a nice Christmas surprise since late summer. You will hear about it in time for the festive season... 😊

On behalf of the board, I wish everyone a great first weekend in the snow.

Roger Bennet

President & Head of Archives
